OUR FACILITY

OUR VISION IS TO
REVOLUTIONIZE ANIMAL CARE
AND BE A CATALYST
FOR KNOWLEDGE EXCHANGE.

DANIELLE & ROB SCHEINBERG, FOUNDERS

King Animal Hospital is a privately owned multidisciplinary referral and emergency facility for animal care where specialists and technologies can harmonize under one roof.

OUR FACILITY

- 60,000 square feet, 4 Story Hospital
- Located on 50 acres North of Toronto
- Laboratory & Pharmacy
- 8 Operating Rooms
- 12 Exam Rooms
- MDRD Sterilization Room
- Separate Cat Ward
- Outdoor Paddocks for Horses
- Outdoor Green Space for Dogs
- Rubberized Heated Outdoor Ramp for Horses and Trailers
- Auditorium for Knowledge Exchange and CE
- 2 Staff Kitchens & 1 Staff Gym

OUR FACILITY

SMALL ANIMAL SERVICES

- Surgery
- Critical Care:
ICU with High Performance Ventilator
- Dermatology
- Ophthalmology
- Neurology
- Internal Medicine
- Rehabilitation:
Hydrotherapy Pool, Underwater Treadmill,
Laser Therapy
- Hyperbaric Oxygen Chamber
- Extended Hours Emergency
- Diagnostics:
3T MRI, 128 slice CT, C-Arm Fluoroscopy,
Digital X-ray, Ultrasound, Endoscopy
- Future Offerings:
Cardiology, Oncology

EQUINE SERVICES

- Elective Surgery
- Performance Evaluation in
5,800 square feet Indoor Arena
- Rehabilitation:
Underwater Treadmill, Laser Therapy
- Diagnostics:
1.5T Recumbent MRI, 64 slice Standing
CT with Robotic Arm, C-Arm Fluoroscopy,
Digital X-ray, Ultrasound, Endoscopy

BROCHURE

OUR FACILITY

BROCHURE

Leading with Care.

An animal healthcare provider, bringing experts and the technologies they need, under one roof—working together for animal care.

OUR VISION

To revolutionize animal care and be a catalyst for knowledge exchange.

OUR MISSION

To ensure that every animal has access to the most compassionate and committed care possible.

OUR VALUES

Respect is at the heart of everything we do.

It underpins every interaction, whether it is with each other, our animals, the owners, our vendors, or our partners. It is also implicit in each of our four values.

Demonstrate Compassion

Compassion is our compass. Through empathy and understanding, it allows us to listen closely and ensure all needs are met. As a care provider, it is the reason why we care.

Nurture Innovation

From the use of available medical technology to providing high standards in animal care, we continuously seek innovation in our profession. It represents a desire to drive veterinary science forward with the aim of helping animals as effectively and efficiently as possible.

Share Knowledge

Knowledge sharing isn't just about the exchange of ideas, it is also about feeling valued and heard. We advocate passionately for information to be readily accessible because it's inherently empowering and beneficial to all.

Inspire Others

We believe that the more people working to improve the lives of animals, the better. Inspiration is motivating; it opens our eyes to new possibilities and allows us to dispel our limitations.

OUR APPROACH

BROCHURE

We are bringing together a multidisciplinary team with access to technology, diagnostics, treatment and rehabilitation at one site.

Providing animals with health care is our common goal and requires a variety of complementary resources. They cannot tell us about their symptoms, how those manifest themselves or about their intensity. Care for animals may sometimes require navigation through a complex process, which can be time consuming, emotionally draining as well as financially daunting. Reaching a diagnostic and a resolution often requires dialogue between different specialists.

King Animal Hospital is a place with diverse experts under one roof allowing for solutions to be found quickly and with maximum responsiveness, efficiency and effectiveness. This revolutionary vision manifests itself within our carefully curated building, a space in which a unique facility exists, designed from the ground upwards to foster care for its patients and a calm space for their owners to feel equally comforted. The scale and provision within each of our building's spaces has been carefully considered to accommodate all creatures great and small.

WE'RE ABOUT AUTHENTIC AND INDIVIDUAL STORIES

Our revolution is about having a profound impact and improving animals' lives, giving to all living beings the level of respect and compassion that we would expect for ourselves. We relentlessly adhere to that intent and will endeavour to see each patient under our care return to happy and healthy well-being. It is a revolution made of authentic and individual stories.

King Animal Hospital represents the best that our collective minds and skills can and should provide for animal care, within a purpose-built environment to realise that vision. We hope to welcome you and help overcome the challenges that you may face.

A WELCOMING HOME DEDICATED TO DELIVERING HIGH QUALITY ANIMAL CARE

Compassion and care relentlessly drive all our actions. Everything has been imagined and created with one idea in mind: giving animals superlative medical care.

King Animal Hospital has been built to accommodate this vision, to create a calm and gentle open atmosphere within a building of 60,000 sqft including an indoor arena of almost 6,000 sqft, all set within fifty acres. Our grounds feature beautiful walking trails, outdoor paddocks, fabulous green spaces, rubberized heated ramps, water treadmills and pools.

Whilst they are with us, all animals belong to our happy family and receive our utmost respect and diligence of care. And we will always welcome them back with open arms as they progress through life's journey.

DIAGNOSTICS AND REHABILITATION EQUIPMENT
IS DEFINITELY IMPORTANT TO PROVIDE CARE
AND IMPROVE THE LIVES OF OUR PATIENTS.

BUT, EQUIPMENT ALONE WILL NOT BE
THE GAME CHANGER. IT IS THE EXPERTISE
AND COMMITMENT OF OUR COMPASSIONATE,
COLLABORATIVE TEAM THAT BRINGS VALUE.

TRACY E. JONES, CEO

WORKING TOGETHER

WORKING TOGETHER

AN ALL-IN-ONE DESTINATION FOR TREATMENTS

The treatment journey has been simplified to exist within one venue, encompassing intensive care, internal medicine, oncology, neurology, cardiology, dermatology, ophthalmology, surgery and emergency.

The sequence and availability of treatment is tailored to our patients needs. Ambassadors will help our clients navigate the often complex treatment journey. At the very centre of our thinking is an offering that is as easy as possible to access.

At King Animal Hospital, specialists engage in a unique dialogue with each other whilst researching and utilising available technology, allowing for creative and innovative solutions. Our approaches are designed and implemented with one ultimate goal, the well-being of any animal under our care.

This global approach also nurtures innovation which we endeavour to share.

A SCIENTIFIC REVOLUTION MADE THROUGH KNOWLEDGE EXCHANGE

Our integrated approach aims at securing a successful recovery path for all animals under our care. Our research facility features a large auditorium, laboratory, multiple exam rooms, a MDRD room and diagnostics tools such as X-ray, MRI and CT scans (for small and large animals alike).

Rehabilitation commences through a wide array of treatments including ultrasound, hydrotherapy, hyperbaric chambers, laser therapy and other expected conventional solutions. A team of specialists from each discipline interacts to find the best solution available for each challenge faced.

It is a prospect for thought exchange and at the very core of our ethos is that this excitement and unique provision would benefit our clients, any animal within our care as well as our staff.

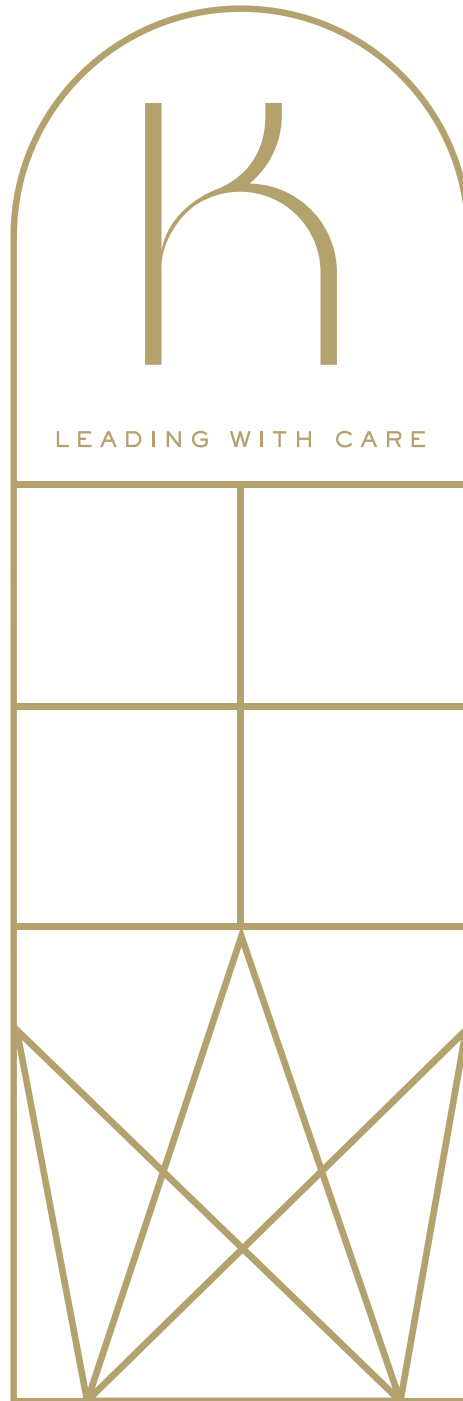

A PLACE WHERE WE GROW TOGETHER

King Animal Hospital is committed to creating a company culture and infrastructure of support for holistic well-being, so that every employee can fulfil their role.
